NMLS-50705	Confirm IDV on individual renewals workflow	As an effort to reduce errors associated with processing renewals carts, an enhancement was made to check an individual's Identity Verification (IDV) status prior to the individual requesting or attesting for renewal. When a CBC is requested, the relevant individual for the MU2, MU4, or MU4R filings will see the Privacy Act Statement displayed on the attestation page. 2. The FBI Privacy Act Statement and the link to FBI Information on how to amend your record is displayed on the CBC Request page in Individual Composite. 3. When a CBC is requested as a part of the renewal attestation, the relevant individual will be presented the Privacy Act Statement on the attestation page. 4.
